

Syniverse Innovation Theater Schedule

Booth 2G11 in Hall 2

Monday, Tuesday, Wednesday – February 25-27, 2019

Time	Topic	Presenter(s)	Description
9:30 - 10 a.m.	Blockchain for the expanding digital ecosystem	David Hassman	Expand your relationships and grow your revenue. Learn how to utilize blockchain to simplify contracting and management of quickly growing and increasingly complex commercial relationships brought on by the IoT and 5G.
10:30 - 11 a.m.	Securing connections for 5G and IoT	John Wick/Majed Habbal	Secure your world. Hear how you can protect your mission-critical data in an age when emerging technologies like the IoT expose your business to greater levels of risk from the public internet.
11:30 a.m. - 12 p.m.	Delivering exceptional user experiences with rich communications	Chris Wright/Carlos Aragon (Mavenir)	Mobile operators and brands can learn how to simplify their RCS (Rich Communication Services) deployment, and realize new messaging revenue streams while increasing user engagement and conversion.
1 - 1:30 p.m.	Monetizing 5G: creating new frontiers for mobile	Pradeep Bhardwaj/ Richard Hodges	Get a snapshot of where we are on 5G adoption, the exciting new opportunities 5G brings, the challenges we must overcome for 5G monetization and how we prepare for long-term success in 5G.
2 - 2:30 p.m.	The race to connect the next 30 billion devices is on!	Dan Klaeren	The race to connect the next 30 billion devices is on! Join us as we walk through flexible options for virtual network connectivity and the technology advancements that will power Industry 4.0. Learn how to position yourself to achieve maximum success.
3 - 3:30 p.m.	Is your network ready for 5G?	Leigh Ann Polverelli/ Chris Wright	The rollout of 5G networks will dramatically impact operator networks. As the largest IPX network provider, we're modeling this impact based on real data and forecasting volumes. Evaluating your current network capabilities and mapping future requirements for 5G and IoT readiness is critical to ensuring you're prepared for the impact of 5G.
4 - 4:30 p.m.	Roaming and interconnection in a 5G world	Pradeep Bhardwaj/ John Merchant	The development of 5G networks brings new challenges to roaming and interoperability, but it also offers new opportunities to expand the mobile ecosystem and increase the customization of global mobile services.
